Overview

- **The new Data Center is organized by function.**
 - Previously the Peer Analysis System and the Data Cutting Tool were separate tools and functions were contained within each tool.
 - Let's take a look at main page which allows us to access the function

Exploring the Data Center

- Let us look at the features of the Data Center by exploring three common tasks that can be readily completed using the DC.
- First, our institution is attempting to create a comparison group.
 - Suggestion is to use all institutions from
 - our region
 - with the same Basic Carnegie Classification
 - From the same sector
 - Concern is...are they similar enough in enrollment to be considered for our comparison group
- Let's first create our comparison group and then produce a ranking report based on total enrollment.

The screenshot shows the IPEDS Data Center website with the title "Levels of Data Access -- Final". The page features a navigation bar with "Home", "Site map", and "Manage session" links. A central panel titled "What data would you like to access?" contains a "Final Data" section with a checkmark. This section lists various data categories: Institutional Characteristics (2006-07), Pricing and Tuition (2006-07), Admissions (2006-07), 12 Month Enrollment (2007), Fall Enrollments (2007), Graduation Rates (2007), Student Financial Aid (2007), Finance (2007), Human Resources (2007), and Completions (2007). A "Continue" button is located below the list. Below the "Final Data" section is a "Preliminary Data (Login required)" section.
