Annual Report on Licensing Activities for FY 2015-16

Background

This report on licensing activities is for the Committee's information and covers the period from July 1, 2015, through June 30, 2016.

Under South Carolina law, all licenses for higher education institutions operating in the state are program- and site-specific. Thus, an institution must first be approved by the Commission to operate at a given site for the offering of a given program or programs. An institution that is licensed already must apply for an amendment to its license when one of more of the following occurs:

- The institution seeks to add a field or major not previously offered if that field/major constitutes more than 18 semester hours of credit for undergraduate programs or 12 semester hours for graduate programs;
- Cumulative changes equal or exceed 25% of the contact hours, credits, curriculum content, or program length following the initial program approval or last review by the Commission;
- Cumulative changes in the course of a calendar year equal or exceed 25% of the field or major licensed.

Licensing staff in the Division of Academic Affairs evaluate requests for initial licensure of new degree-granting institutions, amendments to existing licenses to add degree programs at in-state sites, and amendments to existing licenses to add in-state sites to licensed degree-granting institutions. Staff then prepares these requests and recommendations for the consideration of the Committee on Academic Affairs and Licensing.

Institutions also request modifications for minor changes that the licensing staff approve. Those modifications include the following:

- Course requirements in an existing program that constitute less than 25% of the program’s academic requirements in a year;
- A “concentration” within a program of study that constitutes 18 credit hours or less;
- A name for an existing program of study;
- The mode of delivery for an existing program of study.

In addition, licensing staff evaluate and approve applications for initial licensure for nondegree-granting institutions (in-state and recruiting), amendments to existing licenses to add nondegree programs, and amendments to existing licenses for nondegree-granting institutions to add in-state sites.

I. Approval of Initial Licensure and Amendments for Degree-Granting Institutions

The Committee on Academic Affairs and Licensing and the Commission approved Augusta University (GA) for initial licensure in 2015-16. Licensure is to offer in Aiken County schools a program leading to the Master of Education degree in Curriculum and Instruction.

In addition, the Committee on Academic Affairs and Licensing and the Commission approved an amendment to the license of Lenoir-Rhyne University (NC) to offer at its site at the Lutheran Theological Southern Seminary (LTSS) in Columbia, SC a program leading to the Master of Science in Occupational Therapy.

II. Degree-Granting Institutions

The following table lists all degree-granting, postsecondary institutions that are licensed to have sites in South Carolina. Nova Southeastern University surrendered its license in November 2015 due to lack of physical presence in SC.

III. Nondegree-Granting Institutions

In addition to licensing of degree-granting institutions, the Commission licenses entities that offer certificate and diploma programs that prepare students for a pre-determined vocation. The Commission has delegated to the staff the authority to review and approve nondegree programs. As of June 30, 2016, CHE licensed 69 schools offering nondegree programs at 180 sites. During the 2015-16 fiscal year, the staff approved initial licensure of the following schools that offer nondegree programs:

IV. Records

The Commission is the repository for records of schools that have closed. The Commission processed 101 requests for records in the 2015-16 fiscal year.

V. Agent Permits

The Commission issues permits to agents who represent licensed institutions. The agents follow-up on leads generated by advertising and soliciting activities. As of June 30, 2016, 246 agents were permitted to recruit in the state.

VI. Complaints

The licensing regulations require that each institution include a complaint procedure in its catalog. The procedure typically includes a formal process by which a student may approach institution officials and seek resolution through the institution. If the student cannot reach a satisfactory conclusion, he or she may submit a complaint to the Commission. Members of the staff of the Commission refer students to other resources and mediate sharing of information between students and school officials. In cases where students file formal complaints, the staff reviews the complaint, sends it to the school for response, transmits the response to the student, and attempts to negotiate resolution of the complaint. Sometimes complaints result in readdressing policies and procedures at the schools in order to avoid similar problems.

License regulations also state that the Commission may intervene on the behalf of a person filing a complaint against an exempt institution to determine whether the institution followed and exhausted its own complaint process. Should the Commission conclude that an exempt institution has not complied with its own established policies, the extent of the Commission's authority is to encourage the institution to make reasonable efforts to resolve the complaint in a fair and equitable manner.

During the year 2015-16 fiscal year, licensing staff received 45 complaints. The following table shows the number of complaints by type of institution and the topics of the complaints.
