TAPE.STUDENTE REQUIREMENTS

Date Last Revised: 09/27/2016

The following information will describe in detail which enrolled students should be included in the TAPE.STUDENTE file.

Reporting Period. Institutions are to report Enrollment data for the Fall, Spring, and Summer (Summer I and Summer II) semesters. The Enrollment data included in the TAPE.STUDENTE file is as of the reporting institution's matriculation date and is due at the Commission on October 31, March 31, and August 15, respectively.

Definition of "Matriculation Date". "Matriculation date" is defined as the actual date when a student can drop a course without penalty at the reporting institution.

Enrolled Students to be Included. Report all students enrolled in courses creditable toward a diploma, certificate, degree, or other formal award. Include students enrolled in courses that are part of a vocational or occupational program, including those enrolled at off-campus centers. Include high school students taking regular courses for credit.

Enrolled Students to be Excluded. The following enrolled students should not be included in the TAPE.STUDENTE file.

1. Students enrolled exclusively in courses not creditable toward a diploma, certificate, degree, or other formal award;
2. Students enrolled exclusively in courses not creditable toward the completion of a vocational or occupational program;
3. Students enrolled exclusively in remedial programs;
4. Students exclusively auditing classes;
5. ~~Students studying abroad (e.g., at a foreign university), if their enrollment at this institution is only administrative record and the fee is only nominal;~~
6. ~~Students in any branch campus located in a foreign country; and~~
7. Students earning continuing education units (CEU's), unless they are also enrolled in courses creditable toward a diploma, certificate, degree, or other formal award.

Note: The following clarification for Joint Programs specifies which institution receives the headcount enrollment and which institution receives the course credit hours:

Headcount Enrollment (TAPE.STUDENTE)

1. The institution where the student applied for and was accepted into a specific degree seeking program will report the student to the CHEMIS. In other words, the student's home institution where he/she is seeking a degree will report the headcount enrollment unless otherwise specified in a prior agreement, previously approved by CHE, between the participating institutions.

Course Credit Hours (TAPE.COURSE)

1. The institution that sponsors the course (pays the faculty) "owns" the course and will report the credit hours to the CHEMIS unless otherwise specified in a prior agreement, previously approved by CHE, between the participating institutions.

These instructions apply to all existing Joint Programs Agreements as well as any new ones approved after November 1, 1993.

TAPE.STUDENTE contains data for all students for a given year and semester at institutions. Consistent with ASCII format, fields and files are delimited by physical position. Three record types are contained in this file and are identified as follows: Enrollment Data Record (**DATA_TYPE field = "E"**), Transfer Data Record (**DATA_TYPE field = "T"**), and Double Major Data Record (**DATA_TYPE field = "M"**). Each Enrollment Data Record will be followed by zero or more instances of the other two record types. The order in which the record types will be reported is: One Enrollment Data Record followed by zero or one Transfer Data Records followed zero or more Double Major Data Records. For all records, REC_TYPE is specified with the constant "E" to aid in identifying the record. If "E" is not present, then a discrepancy will be detected during the edit process. Nulls are represented as all nines in both alphanumeric as well as numeric fields. All fields are mandatory.

*For private institutions only, these fields should be reported as nulls.

**For private institutions, this record is optional.

*** The Pre-Requisites are reported only by the public institutions and were changed in fall 2001. In 2011-12, Pre-Requisites were again revised. The Data dictionary reflects the 2011-12 effective date.
