FY 2008-09 APPROPRIATIONS

During the session, the Board of Economic Advisors issued reduced estimates for projected state revenue for the current year FY 2007-08 and FY 2008-09. The revised projections resulted in recommended reductions to base budgets upwards of 5% for FY 2008-09 across most state agencies including higher education.

Summary details are provided below. Complete information on the FY 2008-09 appropriations is available at http://www.scstatehouse.gov/sess117_2007-2008/appropriations2008/gab4800.htm.

Recurring Base Funding for Higher Education: Recurring base funding for colleges and universities was reduced on average by about 3% or approximately \$23 million. Like the institutions, higher education agencies including CHE, State Technical Board and Tuition Grants also received cuts to recurring base funding bringing the total reductions in recurring funding to \$27 million across higher education. Approximately \$4 million of the \$27 million in reduced funding is a reduction of recurring funds for the state's LIFE program that is included in CHE's budget. However, it is important to note that the state's merit scholarship programs (Palmetto Fellows, LIFE and HOPE) are fully funded for FY 2008-09 in light of anticipated increases. Detailed information on the funding of the scholarship programs is found on the next page. The only new FY 2008-09 recurring general funds across the higher education agencies and colleges and universities included \$200,000 for the statewide electronic library. With this funding, the total annual funding for the library was reduced 90% since the library had received \$2,000,000 annually during the past four fiscal years. Also of note in regard to recurring appropriations, the state's FY 2008-09 budget includes funds to provide a 1% pay increase for state employees and to cover state health plan increases.

Non-Recurring (one-time) Funding for Higher Education: Limited one-time funds were also appropriated, and for higher education non-recurring (one-time) funds included \$4,500,000 continued funding for a second year for the SC LightRail project, \$1,112,229 continued for the University Center of Greenville Operations, \$250,000 continued for the SC State Bridge Program focused on the recruitment of minority teachers, \$100,000 for operating expenses for USC Lancaster, \$250,000 for the Rural Dentist Incentive Program, \$600,000 for MUSC's Cancer Center and \$6,400,000 for MUSC disproportionate share. The funds total \$13.85 million dollars. Last year, higher education received approximately \$51 million in nonrecurring funding.

Lottery Funding:

The FY 2008-09 budget includes a total of \$260,722,729 in lottery fund appropriations with 81% dedicated to higher education projects. The following higher education programs are funded in the lottery:

- \$181,708,202 for scholarship and grant programs (see below for details),
- \$10,000,000 for Centers of Economic Excellence program (a reduction of \$20,000,000 from FY 2007-08),
- \$4,700,000 for Higher Education Excellence Enhancement (same as FY 2007-08),
- \$2,500,000 for SC State (same as FY 2007-08), and
- \$12,000,000 (\$3,600,000 in lottery revenues and \$8,400,000 in certified unclaimed prize funds) for technology for 2- and 4-year institutions (same as FY 2007-08).

The lottery fund recommendations also include a provision that would appropriate any unclaimed prize funds collected in excess of the \$8,400,000 in unclaimed prize funds that have been dedicated to technology for public institutions as follows: 1) \$4,000,000 for Allied Health Initiative for State Board for Technical and Comprehensive Education, 2) \$1,000,000 for Critical Needs Nursing Initiative, and 3) the balance of any funds after the aforementioned appropriations to the Need-based Grant program.
