Information on Student Records from Closed Schools

The SC Commission on Higher Education serves as the repository for some student records from licensed institutions that have closed. If an institution cannot provide for assignment of the records to another institution or agency, the Commission may seize the records and, as necessary, negotiate for assignment of the records to another institution or agency that will accept responsibility for their safety, maintenance, distribution, and, where appropriate, disposal. Typically, the only documentation on file at the Commission is an academic transcript.

The Commission does not maintain student records for closed K-12 schools, public or independent postsecondary institutions, training programs licensed or approved under an occupational licensing law of the State of South Carolina (such as cosmetology, barber, esthetics, and real estate), out-of-state locations, or other non-licensed training providers or institutions.
