

## **SOUTH CAROLINA PARTICIPATION IN SREB PROGRAMS AND SERVICES**

- The Southern Regional Education Board (SREB) was founded in 1948 by the Governors of the member states specifically to help states share resources and improve higher education.
- Today, SREB continues to organize and administer regional arrangements to avoid costly duplication and expensive development of programs that provide access to undergraduate and graduate programs in specialized areas by waiving out-of-state tuition.
- SREB data collection, SREB policy documents, comparative research and publications on K-20 issues as well as participation in several other programs are benefits of South Carolina's membership in this sixteen state consortium.
- The SREB operates through state support provided by the member states. SREB's 16 member states are AL, AR, DE, FL, GA, KY, LA, MD, MS, NC, OK, SC, TN, TX, VA, and WV.
- Each year, the Governors of the member states receive an invoice for their share of SREB general operations and regional education programs and for contracts-for-services. The Commission on Higher Education (CHE) coordinates South Carolina's participation in higher education programs under the SREB. Funding for SREB participation and programs flows through CHE.
- Over the years, state support has enabled numerous South Carolinians to benefit directly through access to programs at rates not available without South Carolina's participation in SREB. Last year alone, nearly 300 students took part in SREB higher education programs. South Carolina itself benefited from timely policy information and other regional programs.

**SREB General Operation and Regional Education Programs** offer benefits by enabling access to student programs such as the *Academic Common Market*, which provides access to undergraduate and graduate programs in specialized areas, and the *Electronic Campus*, which is an "electronic marketplace" for courses, programs and services. In addition, South Carolina benefits from access to a wealth of SREB publications and data sharing resources and ability to participate in other regional programs. SREB works with higher education and K-12 agencies in the 16 member states to collect and share timely comparative information and data and to produce policy reports used extensively by state leaders.

**SREB Higher Education Contract Programs** offer students pursuing professional health degrees admission to schools in other states for the price of in-state tuition and fees at public institutions and for reduced tuition at private institutions. Participating states pay schools to maintain spots in their professional programs and save the expense of building and staffing these schools. South Carolina participates in Veterinary Medicine at Tuskegee University, the University of Georgia, and Mississippi State University and in Optometry at Southern College in Tennessee and the University of Alabama Birmingham. SREB serves as the fiscal agent and handles the administrative duties for participating states. SC has participated in veterinary medicine programs since 1958 and optometry since 1973. Funding supports a total of 104 students in veterinary medicine and 24 in optometry.

**Academic Common Market** was established in 1974 by SREB to share among member states specified degree programs located at southern public colleges and universities through an exchange of students across borders at in-state rates. As a cooperative agreement among states, the Academic Common Market seeks to eliminate unnecessary duplication of degree programs while supporting programs which are able to serve additional students. The program allows residents of the 16 member states to pay in-state tuition rates while enrolled in certain degree programs at participating out-of-state colleges and universities. In accordance with SREB policy, eligible programs are those undergraduate and graduate programs which are at least 50 percent different in course content from programs offered in the home state. Currently, SC institutions have made 96 programs available through the Academic Common Market, and SC residents have access to 372 out-of-state programs. In 2012, 124 South Carolinians were certified to access programs in other SREB states.

**Doctoral Scholars Program** provides financial assistance and academic support to minority students who are admitted to doctoral programs. The program's purpose is to produce more minority PhDs and to encourage them to seek faculty positions. The program began in 1993. And as of 2013 this SREB program has graduated almost 700 Ph.D's: 80% of them are employed in education and 70% work in SREB states. This past year, 16 new and continuing students from SC participated in the program.

**Tuition Aid Program (Arts Program)** provides tuition assistance to SC residents to attend the North Carolina School of the Arts, a conservatory-based high school program in Winston-Salem to train professionals in the arts. The amount per student is determined by the amount appropriated divided by the number of South Carolina residents who attend. In 2012, one student received support.

## SREB Funding and FY 2014-15 Request

In FY 2013-14, the appropriations for SREB are found across two lines in CHE's base budget – SREB Contract Program and Assessments (\$3,509,750) and SREB Arts Program (\$7,177) for a total of \$3,516,927.

**For FY 2014-15, CHE is requesting increased funding needed to maintain level participation in the SREB programs. The increase needed in recurring funds is \$180,810.**

---

**FY 2014-15, SREB program costs and requested funding are outlined as follows:**

SREB Contract Programs	\$3,262,400 <sup>1</sup>
Veterinary Medicine at University of Georgia, Mississippi State University and Tuskegee (104 students at \$27,700 per student) and Optometry at Southern College of Optometry and University of Alabama (24 students at \$15,900 per student).	
Doctoral Scholars Program (12 students at \$25,000 per student)	\$300,000
Tuition Aid Program (Arts Program)	\$7,177
SREB General Appropriations and Regional Education Programs Including Technology Initiative	\$207,360 <sup>2</sup>
<b>Total FY 2014-15 Need</b>	<b>\$3,776,937</b>

---

**Current available funding sources:**

FY 2013-14 Recurring General Fund Appropriation	(\$3,516,927)
Anticipated unexpended SREB funds carried forward from FY2013-14 <sup>3</sup>	(\$79,200)

---

**Resulting FY 2014-15 request after consideration of recurring funds and estimated carry forward:**

**Recurring Increase of \$180,810**

---

- 1 Per student rates for Optometry and Veterinary Medicine increased in FY 2014-15 per SREB scheduled increases - Veterinary Medicine by \$1,100 per student and Optometry by \$600 per student or an overall increase of \$128,800 (104 x \$1,100 plus 24 x \$600). The increase in contract seats for FY 2014-15 is a planned SREB increase and represents a 4% increase over FY 2013-14 contract rates.
- 2 To support core operations and regional education programs for FY 2014-15, SREB set the requested appropriations payment at \$199,360, a 3% increase over the prior year and the first increase since FY 2008-09. The balance of \$8,000 supports participation in the SREB Technology initiative.
- 3 CHE is authorized by budget proviso (FY 2013-14, Part 1B 11.7) to carry forward funds appropriated for SREB programs and expend such funds for the same purpose. Carry forward funds may result in any year if all available funded SC contract seats are not filled due to occasional student stop-outs which may occur during the year. The request for FY 2014-15 anticipates all seats being filled and factors in estimated carry forward from any seats not filled in the current year.
